Monroe County ("Subscriber") requests BellSouth Telecommunications, Inc. ("Company") to provide the following Service at Subscriber locations as detailed in the Service Attachment. The Service included in this Agreement is:

MegaLink (PT - PT) Service

The Company will provide the requested Service under the terms and conditions stipulated in the governing tariff. Tariff references providing the basis for this Agreement are detailed in the Service Attachment. Important tariff provisions relating to the requested Service include, but are not limited to:

1. The Company will furnish, install, maintain, and provide maintenance of the Service in accordance with the Company's lawfully filed tariffs. The service period shall begin on the date Service is installed and billing begins ("Service Period"), unless specified otherwise in the tariff.
2. The Subscriber agrees to pay the Company for the provision of the Service based on the selected length of term described in the tariff. This monthly rate will continue for the elected Service Period and will not be subject to Company initiated change during this period.
3. The Service Period, monthly recurring charges, and non-recurring charges for this Agreement are detailed in the Service Attachment.
4. In the event the Service is terminated prior to the expiration of the Service Period, the Subscriber shall pay Termination or Cancellation Charges as specified in the tariff. The appropriate tariff sections shall govern moves of service, upgrades to a higher level of service, and changes in jurisdiction.
5. The Service Attachment describes the quantity of Service the Subscriber has ordered. Should the Subscriber desire to add or change Service, the Company agrees to do so under the terms and conditions of the tariff and the Subscriber agrees pay any additional charges resulting from the change or addition.
6. In the event the Service requested by the Subscriber is cancelled prior to establishment of Service, but after the date of ordering reflected herein, the Subscriber is required to reimburse the Company for all expenses incurred in handling the request before the notice of cancellation is received. Such charges will not exceed the sum of all charges that would apply if the work involved in complying with the request had been completed.
7. The Subscriber agrees to pay any added costs incurred by the Company due to Subscriber initiated change in the location of the requested Service prior to the time the Service is installed.
8. At the expiration of the Service Period, the Subscriber may continue the Service according to renewal options provided in the tariff.
9. Service Periods may also be renewed prior to expiration in accordance with regulations and rates then in effect.
10. If the Subscriber does not elect an additional Service Period, or does not request discontinuance of the Service, then the Service will continue at the monthly rate in effect for month-to-month rates at the time the Service Period expires, or as specified in the tariff.
